

WEST TAMAR ARTS GROUP INC.

MISSION STATEMENT

To create a partnership between artists and the community to provide artistic experiences and professional development opportunities for all.

- We work in partnership with local businesses, schools and local, state and federal governments.
- We distribute information regarding the arts to members, friends, media and academics through our e newsletter, websites and other social and printed media.
- We educate and provide active artistic experiences for school children and youth in the community
- We encourage and develop the artistic potential for our local community by conducting workshops and exhibitions.
- We curate Gallery Windsor and Moores Hill Winery tasting room.

We collaborate with local schools, NRM North, Landcare, Parks and Wildlife to encourage an understanding of our environment. 2016 will see us involved with the Reflective Posts (schools program) and Waterlines (community project) which compliments Artentwine.

Artentwine Sculpture Biennial sees WTAG working with 5 wineries and this year includes the Artentwine Symposium – Form and Place.

Fundraising events are part of our community committment, ie: Designer Shoes meets Designer Wines and Winter Wine and Chocolate.

WTAG has recently become an incorporated body as part of our natural growth. This brings with it social and community responsibilities including a duty of care to our members, our committee and our wider community. Our policies and procedures now reflect this.

If you require assistance in completing the new membership form please feel free to contact one of the committee members for advice via our email address: wtag1194@gmail.com
